

Barbara Borgonovi
Vice President of Operations
Raytheon

Barbara Borgonovi is vice president of Operations for Raytheon Space and Airborne Systems. As a member of the SAS leadership team, she is responsible for all Operations functions and critical support such as Facilities and Environmental, Health, Safety and Sustainability.

Before her current assignment, Borgonovi was SAS director of Program Operations for Electronic Warfare Systems (EWS). There she was responsible for WES' operational performance and operations strategy. Among her responsibilities were capital management and support of critical EWs pursuits.

Borgonovi previously served as deputy of Tactical Products at Raytheon Vision Systems (RVS) and was the senior program manager responsible for the portfolio of Intelligence, Surveillance and Reconnaissance Systems programs and next generation army programs.

Since joining Raytheon in 2001, Borgonovi has held numerous challenging positions in program management, Supply Chain, Operations Management and Quality Engineering.

Borgonovi holds a master's degree in business administration from Pepperdine University. She graduated with a bachelor's degree in mechanical engineering from California Polytechnic University San Luis Obispo, and is a graduate of both Raytheon's Leadership Development Program and Leadership Excellence Program. She serves as the Raytheon campus manager for Cal Poly San Luis Obispo and is a certified Raytheon Six Sigma Expert.

Raytheon Space and Airborne Systems is a leading provider of integrated sensor, communication and electronic warfare systems giving military forces the most accurate and timely actionable information available for the network-centric battlefield. With a workforce of 13,500 and 2014 sales of \$6.1 billion, SAS is headquartered in McKinney, Texas, with operations across the U.S. and internationally.

Raytheon Company, with 2014 sales of \$23 billion and 61,000 employees worldwide, is a technology and innovation leader specializing in defense, civil government and cybersecurity markets throughout the world. With a history of innovation spanning 93 years, Raytheon provides state-of-the-art electronics, mission systems integration and other capabilities in the areas of sensing; effects; and command, control, communications and intelligence systems, as well as cybersecurity and a broad range of mission support services. Raytheon is headquartered in Waltham, Mass. For more about Raytheon, visit us at www.raytheon.com and follow us on Twitter @raytheon.
