Leverages experience/knowledge through Peer System/Networking

Some lessons learned for the next COHORT

- Partnering or Twinning Peer Teams to promote more learning and exchange during the programme;
- Smaller working groups in the main sessions and more time for exchange; strengthen the practical focus of the assignments/exercises
- Replicate the Mentorship experience in other Regions
- **Continue with the 1st Cohort as Champions for women leadership and involve the teams in mentoring for future programmes.**
