

## Leadership Call to Action A View From the Top

### Individual Call to Action

1. Complete the LEAD Commitments and Learning Integration Framework for Session 10 in your Journal.
2. **Start to Seed for the Future – Build your own bench strength and pay it forward:**
  - In an ongoing effort to continue the cycle of helping others along their career paths, meet with one or more of your employees or peers, and share with him/her the most important lesson you learned from the speakers, as well as your own “best advice”.
  - What are 1-2 things that you want to continue to focus on as you continue your journey of self-development? Add these to your LEAD Journey Roadmap and continue to use this living document to guide your growth.
3. **Next month’s session is The Transformed Leader: Changing the Corporate Landscape, Review, and Graduation Event. To prepare for this session, the following actions need to be taken:**
  - Share your ‘return on development’ statement (**ROI**) with your manager. Discuss with your manager how you feel you have developed as a leader and determine what ‘next steps’ you should focus on to continue your leadership journey post LEAD.
  - Note: Please personally invite your manager to the program commencement and celebration as they have been sent an invitation from WOMEN Unlimited already with the graduation event details.

### Matrix Team Call to Action

1. Meet with your matrix team to review what you have gained as a result of working together. Your Mentors have received an invitation to the Graduation and Awards Recognition Event; please be sure to also personally invite them to this special event. In addition, please consider writing a thank you for their commitment during LEAD.
2. Complete “**LEAD Journey Impact**” PowerPoint presentation deliverable and *email it to your program administrator prior to the next session.*
  - **SUMMARIZE** the impact of your team’s most important LEAD learnings.  
Highlight: **How You’ve Grown, and Why it matters to each of your organizations**  
(Presentation should be no more than 5 minutes and up to 2 slides)
  - Be prepared to present to both your LEAD cohort group in the morning, and to potentially present to graduation guests in the afternoon.
